6. (Amended) Deflection unit according to Claim 4, wherein the external edge of the lateral harness in the front part of the coil remains in an approximately constant radial angular position.

REMARKS

The specification has been amended to include a reference to the priority applications.

The above amendments to the claims have been made to eliminate reference indicia and to meet the requirements of the USPTO.

To meet the requirements of the United States, the Abstract, has been added.

No fee is believed to have been incurred by virtue of this amendment. However if a fee is incurred on the basis of this amendment, please charge such fee against deposit account 07-0832.

Respectfully submitted,
